DETAILED ACTION

Claims 1-6 are currently pending in the instant application. Claims 1-6 have been amended to overcome the rejections presented in the previous office action and Claims 7 and 8 have been cancelled in the Remarks filed on November 20, 2006 by applicants. The Examiner has discussed the 112 issues with the phrase "having the structure" in claims 1-6 with Attorney Burton Rodney on February 9, 2007. However, the Examiner was unable to get a hold of the attorney to discuss the 112 issues with the term "substituted" in Claim 1 and thus a rejection is being sent out.

I. Rejections

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-6 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Specifically, the term "substituted" found in the variable R⁹ and the phrase "having the structure" renders the products indefinite as the term "substituted" and the phrase "having the structure" can be considered open-ended language when not clearly defined and therefore is including additional subject matter in the compounds of the formula IA that is not described in the instant specification and is not particularly pointed out or distinctly claimed. A claim to a chemical compound

cannot be open-ended, but must be claimed with precision. This rejection can be overcome by deleting the term "substituted" and amending the phrase "having the structure" to read "of the structure" in claims 1-6.

II. Objection

Dependent Claim Objections

Dependent Claims 2-6 are also objected to as being dependent upon a rejected based claim. Appropriate correction required.
